Absolute Ozone has released the worlds largest single cell Air-Cooled Ozone Generator. Atlas 100

***December 14, 2010 Edmonton AB Canada - Absolute Ozone,
the manufacturer of the most advanced, compact and best performing Ozone Generators in the world
is proud to present the Atlas 100***

***The Atlas 100 Generator is able to produce twice as much Ozone as compared
to the next leading air-cooled Generator cell. which will allow you to dissolve twice as much ozone
in water from total produced, using only half the oxygen, if compared to most leading brands
ozone generators, with the same ozone production rating, saving you more than half the money
on your system, ideal for water treatment***

***The Atlas 100 can be used in almost any Ozone application such as Aquaculture, Wineries, Industrial
processes, Laundry, Water disinfection, Cooling Towers, Soil Remediation, Food processing,
Swimming pools, Etc..***

***Nothing in the marketplace compares to this high-output, reliable Ozone Generator.
So reliable it will operate for 15-20 years without maintenance and spare parts.***

This makes the Atlas 100 the most intellegent solution for any Ozone application.
